Wealth Management CRM (Series B, \$200M Funded)

Staff Software Engineer: AI Agents, Platform & Rails Architecture

****Target Role:**** Staff Software Engineer: AI Agents, Platform & Rails Architecture ****Comp Range:**** \$150,000: \$240,000 / yr (Remote, Full-time) ****Lead Record:**** [`wwwworkremote` Posting #5049] (http://localhost:31000/api/v0/job_postings/5049) ****Tone Calibration:**** Understated, fact-dense, zero-fluff. Written for VP of Engineering & Technical Leadership. --- ## 1. Mission & Architectural Alignment The target mandate: ****scaling an enterprise financial advisor CRM platform following a \$200M funding round, integrating AI agents and workflow automation into core Rails/Postgres architectures****: aligns directly with my experience in ****financial enterprise acquisition architecture, local AI workflow orchestration, and high-concurrency Ruby/Postgres platform reliability****. ### Why This Match Works (3 Grounded Signals): 1. ****Financial Enterprise Domain & Compliance Scope****: Served as Senior Technical IC and Software Architecture Lead for the Acquisition lane at OneMain Financial, de-risking multi-step financial workflows, customer interaction surfaces, and third-party API supply chains. 2. ****AI-Augmented Engineering & Agent Workflows****: Designed and implemented local, privacy-conscious AI agent workflows for codebase cartography, domain rule extraction, and deterministic evaluation: expanding engineering investigative capacity while keeping human verification explicit. 3. ****Ruby on Rails, PostgreSQL & Cloud Platform Depth****: 25+ years operating production Rails, PostgreSQL (including pgvector), Sidekiq/Redis, AWS, Docker, and Kubernetes under live financial transaction loads. --- ## 2. Fit Matrix & Seniority Calibration | Dimension | Target Role Expectation | Mike's Grounded Evidence | Fit Evaluation | | :--- | :--- | :--- | :--- | | ****Financial CRM Domain**** | Wealth management & financial advisor workflows, high data privacy. | 5 years Acquisition lane architecture at OneMain Financial; regulated fintech compliance experience. | ****Direct Domain Match**** | | ****AI Agents & LLM Integration**** | Modernizing CRM workflows with AI agents & automated tools. | Designed local AI cartography workflows & LLM orchestration with deterministic evaluation. | ****Core Technical Match**** | | ****Core Stack**** | Ruby/Rails, PostgreSQL, React, AWS, Terraform, Docker. | 25+ years Ruby/Rails, PostgreSQL (pgvector), Sidekiq, Redis, AWS/K8s, Linux. | ****Stack Parity**** | | ****Scale & Growth**** | Scaling architecture following \$200M growth funding round. | Founded ACQ Enablement team; decoupled core loan acquisition monoliths into resilient microservices. | ****Growth / Scale Match**** | --- ## 3. Proven Case Studies for Engineering Leadership 1. ****OneMain Financial Acquisition Lane Realignment & Telemetry (2021–2026)****: - ***Challenge***:

Scaling high-volume financial customer acquisition flows with implicit lateral state mutations across multi-service Rails state machines. - ***Action***: Refactored Rails state transitions, eliminated hidden lateral state mutations, founded ACQ Enablement, and deployed enterprise OpenTelemetry tracing across microservices. - ***Outcome***: Reduced MTTR by ~60%, unblocked 4 parallel engineering streams, and eliminated outage cascades. - ***Reference***: [case-studies/index.html#onemain-acquisition](https://www.just3ws.com/case-studies/)

2. ****EMR-Bear 90-Day Rapid Risk Cartography (2026)****: - ***Challenge***: Multi-tenant SaaS platform serving 130+ clinics needed rapid operational risk inventory and release verification governance. - ***Action***: Reconstructed end-to-end component dependencies and instituted pipeline release gates protecting production uptime. - ***Outcome***: Zero clinical downtime during founder transition; delivered empirical risk roadmap for platform modernization. - ***Reference***: [case-studies/index.html#emr-bear-stabilization](https://www.just3ws.com/case-studies/) --- ## 4. Archival Technical Discussions & Provenance - 

****Panoramic View Architecture Discipline****: [The Panoramic View Methodology](https://www.just3ws.com/panoramic-view/) -  ****Advisory & Fractional Engagement Models****: [Fractional & Advisory Engagements](https://www.just3ws.com/engagements/) --- ## 5. Direct Outreach & Pitch Strategy - ****Core Pitch****: Lead with financial CRM domain parity (OneMain Financial acquisition lane) + direct experience implementing AI agent workflows and OpenTelemetry observability in production Rails/Postgres stacks.
