- ["ActiveCampaign", "location" => "Chicago, IL"}](#) Senior Software Developer Owned core system testability and performance at scale, leading legacy modernization in a highly coupled CRM platform.">
 [{"name" => "ActiveCampaign", "location" => "Chicago, IL"}](#) — Senior Software Developer
[Position](#)
- ["Business Decisions, Inc.", "location" => "Remote"}](#) Principal Developer Owned all technical strategy and system development, leading lifecycle modernization for multi-firm consulting teams.">
 [{"name" => "Business Decisions, Inc.", "location" => "Remote"}](#) — Principal Developer
[Position](#)
- ["BenchPrep", "location" => "Chicago, IL"}](#) Senior Software Developer Owned enterprise assessment workflows, leading correctness and platform security in a high-concurrency environment.">
 [{"name" => "BenchPrep", "location" => "Chicago, IL"}](#) — Senior Software Developer
[Position](#)
- ["BP", "location" => "Naperville, IL"}](#) Senior Software Developer Owned critical feature enhancements for an industrial invoicing system, leading performance optimization in high-volume billing workflows.">
 [{"name" => "BP", "location" => "Naperville, IL"}](#) — Senior Software Developer
[Position](#)
- ["Brightstar Corporation", "location" => "Libertyville, IL"}](#) Senior .NET Developer Owned enterprise supply-chain integration, leading cross-system data unification for a global mobile device distributor.">
 [{"name" => "Brightstar Corporation", "location" => "Libertyville, IL"}](#) — Senior .NET Developer
[Position](#)
- ["C.H. Robinson", "location" => "Oakbrook, IL"}](#) System Administrator Owned critical site infrastructure, leading early logistics workflow automation in a high-availability environment.">
 [{"name" => "C.H. Robinson", "location" => "Oakbrook, IL"}](#) — System Administrator
[Position](#)
- ["Coderwall", "location" => "Remote"}](#) Core Team Lead Owned platform modernization and open-source transition, leading infrastructure cost reduction in a community-driven ecosystem.">
 [{"name" => "Coderwall", "location" => "Remote"}](#) — Core Team Lead
[Position](#)
- ["EMR-Bear, a MedSuite company", "location" => "Remote"}](#) Development Manager Engaged on a bounded 90-day interim assignment to conduct rapid system cartography and operational risk assessment for a multi-tenant healthcare SaaS platform serving 130+ clinics following a founder transition.">
 [{"name" => "EMR-Bear, a MedSuite company", "location" => "Remote"}](#) — Development Manager
[Position](#)
- ["Groupon", "location" => "Chicago, IL"}](#) Engineering Learning & Development Business Partner Owned core backend systems for fraud and taxonomy, leading global engineering enablement during hyper-growth.">
 [{"name" => "Groupon", "location" => "Chicago, IL"}](#) — Engineering Learning & Development Business
[Partner](#)
[Position](#)
- ["Integrated Performance Solutions, Inc.", "location" => "East Dundee, IL"}](#) Programmer Analyst Owned dynamic reporting architecture, leading the platform transition from classic ASP to .NET environments.">
 [{"name" => "Integrated Performance Solutions, Inc.", "location" => "East Dundee, IL"}](#) — Programmer
[Analyst](#)
[Position](#)
- ["JPMorgan Chase & Co.", "location" => "Chicago, IL"}](#) Assistant Vice President, Application Developer Owned cross-system integration stability, leading defect resolution in regulated financial workflows.">
 [{"name" => "JPMorgan Chase & Co.", "location" => "Chicago, IL"}](#) — Assistant Vice President,
[Application Developer](#)
[Position](#)
- ["KloboMedia", "location" => "Remote"}](#) CTO Owned end-to-end platform architecture, leading high-throughput data integration for an early-stage social media startup.">
 [{"name" => "KloboMedia", "location" => "Remote"}](#) — CTO
[Position](#)

- ["Motorola", "location" => "Libertyville, IL"}](#) Senior Software Developer Owned retail feature delivery, leading iterative execution in a complex enterprise sales portfolio application.">
 [{"name" => "Motorola", "location" => "Libertyville, IL"}](#) — Senior Software Developer
[Position](#)
- ["New Labor Strategies, Inc.", "location" => "Park Ridge, IL"}](#) Programmer Analyst Owned kiosk-based HR modules, leading frontend modernization for high-friction factory floor environments.">
 [{"name" => "New Labor Strategies, Inc.", "location" => "Park Ridge, IL"}](#) — Programmer Analyst
[Position](#)
- ["Obtiva", "location" => "Chicago, IL"}](#) Software Engineer Delivered backend systems and services as a consultant across multiple clients, including Sears, Leapfrog Online, and Groupon, supporting early-stage scaling and data-driven operations in high-growth environments. ">
 [{"name" => "Obtiva", "location" => "Chicago, IL"}](#) — Software Engineer
[Position](#)
- ["OneMain Financial", "location" => "Remote"}](#) Associate Director, Staff Engineer Served as Senior Technical IC and Software Architecture Lead for the Acquisition lane of a regulated financial enterprise, combining hands-on system cartography with production stability, modernization, observability, and cross-team technical direction. ">
 [{"name" => "OneMain Financial", "location" => "Remote"}](#) — Associate Director, Staff Engineer
[Position](#)
- ["Independent", "location" => "Remote"}](#) AI-Augmented Systems Engineer (Phalanx Duel) Designing and building a real-time tactical game platform as a current hands-on laboratory for deterministic systems, product architecture, and controlled AI-assisted engineering. ">
 [{"name" => "Independent", "location" => "Remote"}](#) — AI-Augmented Systems Engineer (Phalanx Duel)
[Position](#)
- ["ReachLocal", "location" => "Remote"}](#) Senior Software Developer Owned API design and modernization strategy, leading incremental legacy migration for a high-volume digital marketing platform.">
 [{"name" => "ReachLocal", "location" => "Remote"}](#) — Senior Software Developer
[Position](#)
- ["Riverpoint Group", "location" => "Des Plaines, IL"}](#) Software Developer Owned reusable UI component architecture, leading frontend delivery for a personal health monitoring platform.">
 [{"name" => "Riverpoint Group", "location" => "Des Plaines, IL"}](#) — Software Developer
[Position](#)
- ["Sentinel Technologies, Inc.", "location" => "Downers Grove, IL"}](#) Application Analyst Owned custom web delivery and early OCR prototyping, leading cross-platform implementations for enterprise clients.">
 [{"name" => "Sentinel Technologies, Inc.", "location" => "Downers Grove, IL"}](#) — Application Analyst
[Position](#)
- ["SK Holdings, Inc.", "location" => "Chicago, IL"}](#) Senior Backend Developer Led backend stability, performance, and modernization for high-traffic Rails products, improving full-text search, campaign delivery pipelines, and data layer reliability while systems remained under production load. ">
 [{"name" => "SK Holdings, Inc.", "location" => "Chicago, IL"}](#) — Senior Backend Developer
[Position](#)
- ["Tandem", "location" => "Chicago, IL"}](#) Principal Consultant Owned strategic technical assessment and on-site operational evaluation, leading architectural realignment and scope correction for a high-risk federal software program (DoD MEPS). ">
 [{"name" => "Tandem", "location" => "Chicago, IL"}](#) — Principal Consultant
[Position](#)
- ["TicketsNow", "location" => "Crystal Lake, IL"}](#) Senior .NET Developer Owned real-time inventory systems, leading transactional integrity and iterative delivery for revenue-critical operations.">
 [{"name" => "TicketsNow", "location" => "Crystal Lake, IL"}](#) — Senior .NET Developer
[Position](#)
- ["Trippe Manufacturing, Inc.", "location" => "Chicago, IL"}](#) Software Developer Owned sales lead tracking systems, leading data automation and business continuity during a high-risk vendor transition.">

-  {"name" => "Trippe Manufacturing, Inc.", "location" => "Chicago, IL"} — [Software Developer Position](#)
- ["Upcity", "location" => "Remote"} Senior Software Developer Owned payment integrations and local development infrastructure, leading system modernization for an SOA-based marketing platform.">](#)
-  {"name" => "Upcity", "location" => "Remote"} — [Senior Software Developer Position](#)
- ["Viewpoints", "location" => "Chicago, IL"} Senior Software Developer Owned core business system development, leading AWS deployment modernization and CI implementation.">](#)
-  {"name" => "Viewpoints", "location" => "Chicago, IL"} — [Senior Software Developer Position](#)
- ["Independent", "location" => "Remote"} AI-Augmented Rails Systems Engineer \(WWWorkRemote\) Built a Rails-based data platform using PostgreSQL and vector search to ingest, normalize, and analyze large volumes of job data with controlled AI-assisted workflows. ">](#)

NextPatient

Staff Software Engineer — Legacy Integration & Platform Architecture (Ruby/Rails)

Target Role: Staff Software Engineer — Legacy Integration & Platform Architecture (Ruby/Rails)

Company: NextPatient **Comp Range:** \$250,000 — \$300,000 / yr (Remote, Full-time) **Lead**

Record: [www.workremote.com Posting #5048](http://localhost:31000/api/v0/job_postings/5048) **Tone**

Calibration: Understated, fact-dense, zero-fluff. Written for engineering leadership & technical screeners. ---

1. Mission & Architectural Alignment NextPatient's mandate—decoupling modern patient experiences (scheduling, check-in, waitlists, payments) from dated, legacy doctor's office EHR systems—is a direct match

for my 25+ year track record in **System Cartography**, legacy subsystem decoupling, and zero-downtime

platform safety. **### Why This Match Works (3 Grounded Signals):** 1. **Legacy Healthcare System**

Integration: Recently conducted a 90-day system cartography and operational risk assessment for EMR-Bear

(a multi-tenant healthcare SaaS serving 130+ clinics following a founder transition). Established release

verification gates across deployment pipelines to protect clinical uptime and HIPAA compliance boundaries. 2.

Strangler-Fig Decoupling & API Boundary Design: At OneMain Financial, refactored high-volume financial customer acquisition flows spanning legacy database layers, multi-service Rails state machines, and third-party API supply chains—eliminating hidden lateral state mutations and reducing outage MTTR by 60%. 3.

OpenTelemetry & Dark Telemetry Illumination: Founded and technically led the enterprise OpenTelemetry initiative at OneMain, converting dark legacy microservice behavior into empirical telemetry and quantifiable risk governance. ---

2. Fit Matrix & Seniority Calibration | Dimension | NextPatient Expectation | Mike's

Grounded Evidence | Fit Evaluation | | :--- | :--- | :--- | :--- | **Legacy Integration** | Plug modern SaaS into

legacy EHRs without breaking live clinical operations. | 130+ clinical SaaS environments stabilized; strangler-fig

API decoupling across financial monoliths. | **Direct Match** | **Backend & Stack** | Heavy Ruby on

Rails, PostgreSQL, background jobs, zero-downtime migrations. | 25+ years Ruby/Rails, PostgreSQL (including

pgvector), Sidekiq/Redis, AWS/Kubernetes. | **Core Stack Match** | **Platform Ownership** | Staff IC

leadership, responsibility realignment, developer velocity enablement. | Founded and technically led ACQ

Enablement team at OneMain; led cross-team architecture reviews. | **Staff/Principal IC Match** |

Culture & Alumni | High technical autonomy, async documentation, craftsmanship rigor. | Groupon

alumnus; founded Software Craftsmanship McHenry County (820+ members); author of *Panoramic View*. |

Cultural Parity | --- **## 3. Proven Case Studies for NextPatient Leadership** 1. **EMR-Bear 90-Day Risk**

Cartography & Clinical Governance (2026): - **Challenge:** Multi-tenant healthcare SaaS serving 130+ clinics

faced operational risk during a founder exit. - **Action:** Reconstructed end-to-end dependency models

(interaction surface to database locks) and instituted deployment release gates prior to HIPAA compliance review.

- ***Outcome***: Zero clinical downtime during founder transition; delivered empirical risk roadmap for platform modernization. - ***Reference***: [case-studies/index.html#emr-bear-stabilization](https://www.just3ws.com/case-studies/) 2. ****OneMain Financial Acquisition Lane Realignment (2021–2026)****: - ***Challenge***: Implicit lateral state mutations across multi-step Rails state machines caused persistent data corruptions in high-volume loan acquisition flows. - ***Action***: Refactored workflow state transitions, founded ACQ Enablement to protect remediation work, and deployed enterprise OpenTelemetry tracing across microservice boundaries. - ***Outcome***: Reduced MTTR by ~60%, unblocked 4 parallel engineering streams, and eliminated outage cascades. - ***Reference***: [case-studies/index.html#onemain-acquisition](https://www.just3ws.com/case-studies/) --- ## 4. Archival Technical Discussions & Provenance To evaluate my approach to software craftsmanship, legacy modernization, and technical community leadership: - 🎥 ****Software Craftsmanship Retrospective****: [Software Craftsmanship McHenry County Retrospective](https://www.just3ws.com/history/) - 👤 ****Panoramic View Architecture Methodology****: [The Panoramic View Discipline](https://www.just3ws.com/panoramic-view/) --- ## 5. Direct Outreach Strategy - ****Primary Recruiter****: Sarah Fox (Senior Technical Recruiter, Ex-AWS, Ex-Groupon). - ****Outreach Angle****: Lead with common Groupon alumni context + direct evidence of plugging modern Rails interfaces into legacy 130+ clinic healthcare platforms without clinical downtime.
